Sofía Fernández Moreno

DevOps Engineer / System Engineer

Madrid

About me

Hi, my name is Sofía Fernández Moreno. I'm just about the most boring type of person you could possibly imagine. I like collecting logs with SIEM monitoring and living in the new era of the Cloud. I am not a robot. Please hire me.

Also proficient in developing CI/CD pipelines, Configuration Management Tools and deployments over large infrastructure.

Skills

- Bash, Python, Go, C++, Ruby, Groovy
- Docker, Docker-Compose, Kubernetes and Openshift
- Terraform, Helm, Kustomize
- CI/CD: Gitlab CI, Jenkins,Github Actions, ArgoCD
- Pentesting, Social Enginering, Nmap, Wireshark, Kali Linux Tools, Penetration testing OSINT Tools
- Experience configuring NGINX, Apache, Redis, SSL and TLS certificates, Vault secrets
- Databases: PostgresSQL, MongoDB, MySQL, MariaDB and Redis
- LDAP and Active Directory
- Cloud: GCP, Azure, AWS, IBM Cloud
- OpenID Connect, OAuth2, SAML, Keycloak
- API Gateway: Kong
- Logging, Event Streams and Monitoring (ELK, Splunk, Apache Kafka and Prometheus/Grafana)
